Exercise 2: Fundamental Frequency Estimation

Due: Monday, 18 September 2023, 11:59 PM

In this exercise we implement functions for a basic speech signal processing task: Fundamental frequency (F0) estimation.

I tried to put all required instructions within the jupyter notebook file (Exercise_2.ipynb) through links, comments in the code, and etc. Please don't hesitate to ask your questions in the Zulip channel under the tap Exercise 2.

Hope you enjoy coding! Good luck!
